BEAUTY

WHO ARE WE

Established in 1988, DNR Industries is a leading provider of hearse hardware, custom metal finishing.

DNR began as a manufacturer of quality hearse hardware supplying coach builders and the funeral industry worldwide. DNR also produces and supplies custom moldings for the speciality car industry.

ABOUT

DNR manufactures and supplies hardware to funeral coach builders, funeral homes, professionals in the industry and also produces parts for the limousine industry. The majority of components that DNR sells are produced on tooling developed and owned by DNR Industries. DNR also engineers and manufactures custom components to your requirements. These custom components can help you develop a unique look for your coaches that will be exclusive in the industry.
